2020 SUMMER YOUTH INTERNSHIP PROGRAM Highlights

Comments from Internship Providers...

Provides student with a different perspective and emphasizes the importance of essential work during a pandemic.

The CTE staff and teacher intern supervisor, were very helpful, a pleasure to work with, and possessed excellent customer service skills.

The internship program helped students that in health care anything can happen and to be prepared.

Students learn to communicate effectively in a business and customer service on the job.

Comments from Interns...

This SYIP program allowed me to experience and learn things which first-year medical school residents were learning. At the tender age of 17, I was able to learn how amazing the autonomy of being (somewhat/partially) self-sufficient felt like. I have grown and matured in more ways than one due to this internship.

Provides student with the opportunity to experience what work really is, helping them decide if this is actually the career that they want to pursue.

The strongest part of the internship program was the team that I was assigned to. In my opinion there were no weaknesses in the program, was perfect but too short!

2,675 Students Applied

99% of students enrolled completed internship

174 Interns also achieved College Credit
