Breakout Session Descriptions

Session Title	Description
CTE Program Area Session (Required for all CTE Teachers)	Receive program-specific information and updates to Fuel Passion and Careers in 2024-2025 in your CTE program.
Certiport: Rev Up Students Exam Pass Rates	Learn how you can improve passing rates, increase student success in industry certifications, and how balancing curriculum and practice tests can improve overall pass rates and student success. Hear about the new advances in the Certiport testing platform and learn best practices for ensuring a worry-free testing experience.

Agenda
CTE Opening of Schools
Miami-Dade College
Wolfson Campus, Building 3 Chapman Center
August 13, 2024

Session Title	Description
Donors Choose	Donors Choose provides an opportunity for public school teachers to submit project requests for specific materials, trips, and school visitors to support teaching and enhance student learning. Donors choose which projects to support. Once a project is funded, materials are delivered directly to the school. This session will introduce teachers to starting a Donors Choose project.
Driving Preapprenticeship Forward	All current and new CTE instructors with active Preapprenticeship pathways please join the conversation to prepare your students for this upcoming year. Calendars, events, and Best practices will be shared to fuel your pathway and accelerate the growth of your students
Floral Design: Blooming into a New School Year	Floral arranging is a creative and meditative process that connects teachers to nature and their senses to provide a refreshing outlet for self-expression. Engaging in this hands-on activity can provide a welcomed break from the stresses of designing and delivering meaningful and effective instruction, and the fruits of your floral arranging labor can enhance your teaching and learning environment.
Great Expectations: Reaching Wise Mind	This seminar aims to unpack our complex emotional response system and how to manage stressful situations. During the workshop, we will explore the wise mind and how to achieve it using mental well-being tools. We will discuss the nuances of the central self and calculating self. Attendees will learn how to use the membership circle technique; a tool used to organize and release emotions. Lastly, we will explore mindset and the struggle between expectation, reality, and our emotional response.
iCEV Account Set Up & Training	Need to set up your account, learn the platform, and how to implement it in your classroom? This session is for you. We will cover all the basics and some keys to success.
New Registration Process for Early Childhood Education Learning Labs	The purpose of this session is to review the new required documentation and registration process at On-Site Early Childhood Education Learning Labs. This ensures that children aged 0-4 can receive their M-DCPS Student ID # and Breakfast/Lunch at the school site (this session is intended for Early Childhood Education teachers).
OJT Best Practices	OJT best practices and guidelines for implementing a successful OJT program. This session will inform attendees how to properly complete the necessary OJT documentation for audits. Please note that this session is only limited to OJT teachers.

Agenda
CTE Opening of Schools
Miami-Dade College
Wolfson Campus, Building 3 Chapman Center
August 13, 2024

<p>Panel Discussion: Best Instructional Strategies for Passion-Driven Careers</p>	<p>As a teacher, there is no "one size fits all" solution. Whether you have been teaching for two months or twenty years, being an effective teacher is challenging because every student is unique. However, by using a combination of teaching strategies, addressing varying learning styles and academic capabilities, and creating a dynamic and motivational environment in the classroom, teachers can assist students who are driven by passion in making their career decisions.</p>
<p>Whole Package Resources for All CTE</p>	<p>Come learn about a district-wide resource and what lesson plans, activities, and assessments are available to you and your subject area & certification prep as well. All subject areas have something. Why recreate the wheel when we've made the wheel for you!</p>
<p>You can be Mindful and Productive</p>	<p>This seminar will explore mindset and the struggle between expectation, reality, and our emotional response. The second half of the workshop will cover the quadrant method for managing and organizing tasks and projects to help reduce the elusive trigger called stress. We will close the workshop with a broad overview of our complex emotional response system and how to manage stressful situations.</p>
