"The SYIP program allows for students like me to learn about businesses pertaining to career fields we are interested in. It provides hands-on experience which is necessary I think for us to have. This experience helps students to decide on future education and a higher degree in a career field."

Comments From A Parent

As parents, we aspire to see our children being successful in life. My 15-year-old son, a student at Doral Academy Preparatory, like any other teenager, was looking forward to his summer being free of homework and early schedules. However, the internship changed his summer plans, in ways he couldn't imagine.

We are very grateful for his internship with the Miami-Dade Fire Rescue Department's Community Engagement Office; he learned about public service, community engagement, workplace etiquette, and more. This built up his confidence, and he was also able to connect what he learned at school to real-world experiences.
